BOUNTY LANDS.

IMPORTANT NOTICE TO

SOLDIERS, SEAMEN,

AND THEIR

Widows and Minor Children.

A BILL has passed both Houses of Congress, granting Bounty Lands to the following classes of persons, viz:

One hundred and sixty acres to all who have SERVED FOURTEEN DAYS IN ANY WAR of the United States, provided they have not received Land.

One hundred and twenty acres to all who have so served and have received 40 acres.

Eighty acres to all who have so served and have received 80 acres.

And if the soldier has deceased without obtaining 160 acres, the same allowance as above is made to his Widow, or if no Widow, to his Minor Children.

Service in the **Revolution**—in the War of **1812**—and in all the **Indian Wars**, is provided for by said Act.

And all who served the above period in the **drafted Militia of the State of Maine** in the year 1839, in what is known as the

AROOSTOOK WAR,

Are entitled to its benefits. Also the Militia called out by State Authority, and who served the above period, and whose services have been paid for by the United States, and their Widows, and Minor Children.

The subscriber is prepared to receive and prosecute all claims arising under said Act, with promptness and dispatch, and upon as reasonable terms as other Agents.

He has many Military Rolls and Copies in his possession, and especially very full ones of the Militia drafted for the Aroostook service in 1839.

As inducements to commit claims to his charge, he ventures to rely upon his long and well known experience and success in those of a similar nature.

He will, if preferred, **Purchase the Land Warrants** at fair rates.

Application may be made to him at his Office, or if requested by letter, he will send to Claimants Declarations, with suitable directions, which may be executed without the parties leaving their homes.

To secure the receipt of a Warrant early, apply early.

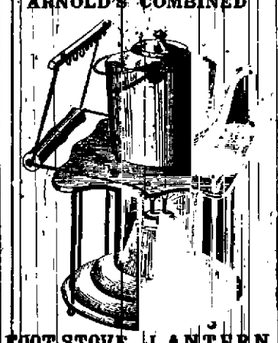
ARNOLD'S COMBINED



FOOT-STOVE, LANTERN,

...AND....

NURSE-LAMP.

ALBERT NOYES having purchased the exclusive right for manufacturing and vending in Penobscot county, the above valuable invention, is now prepared to offer them to the public.

As a FOOT STOVE, it answers all the usual purposes, as it can be sufficiently heated in less than one minute to warm and dry the feet in the coldest winter weather, and will be found to be an indispensable article in traveling. It is heated by an oil-alcohol, or fluid lamp, the flame of which is protected from every external object.

As a LANTERN, it answers all the usual purposes, and is less likely to be overset, or get broken, and can be used as a house lamp with equal advantage.

As a NURSE LAMP, and in cases of sickness, is of great advantage in keeping drinks or medicines warm, beside giving the light desired, and for cooking in small quantities. For making tea, &c., it will be found very convenient, as a quart of water can be boiled in fifteen minutes, and a flat iron heat in the same length of time.

In fact, the various purposes to which this neat apparatus can be put may be readily conjectured by every one. No further description is required, as no one can misunderstand its general utility. To say any thing more respecting its adaptability to a hundred purposes would just be telling what the reader can all see at once for themselves.

ASSIGNEES' SALE

—OF—

Valuable Real Estate

—IN—

ZILWAUKIE, SAGINAW CO., MICH.

THE following described property will be disposed of at Public Auction, at the *Merchants' Exchange, in the City of New York*, on THURSDAY, the 28th of February, 1856, at noon, unless previously disposed of at private sale, by order of the Assignees:

First—One large Steam Saw Mill, known as the Gang or Mammoth Mill, about 60 by 126, including a gang of 21 saws; 12 muly saws, with siding and edging machines; engine room about 30 by 75 feet. The whole driven by the most powerful engine on the river.

Second—The Mill known as the Shepherd Mill, of about 42 by 60 feet, consisting of two muly saws and edging machines, this mill is said to be equal to any mill of its size on Saginaw river. Both of the above mills are in good repair, with large and commodious Wharfs, Lumber Cars, Railways, Booms, in fact all the necessary appointments of first class mills. The above mills were in operation for about three or four months the last season, and gave the utmost satisfaction in regard to the quantity and quality of lumber cut.

Third—About 400 Village Lots in the village of Zilwaukie, in which there is a large Hotel 40 by 60 feet, two stories high; 4 new Store 40 by 60 feet; Office and Boarding Houses, and a number of other Dwellings to accommodate the families of those employed in the mills; and the general business wants of the place.

Zilwaukie is situated on the left bank of the Saginaw, 14 miles from its mouth, and five miles below the county seat of Saginaw county, with which it is connected by a good road. The location is considered healthy; less sickness has prevailed in that than any other village on the river, according to the population, since its settlement. It is at the head of navigation for loaded vessels bound from or to the Lakes, and is considered one of the best points for manufacturing Lumber on the river.

Also, about 500 acres of good Farming Land on Cass River, in Tuscola Co.

For further particulars apply to Dr. CHARLES T. DISBROW, East Saginaw, Mich., or ROBT CARNEY, and ALEX M. LAWRENCE, Assignees, No. 11 South William street, New York.

Boston Lying-in Hospital, SPRINGFIELD-STREET.

THE Trustees of this Hospital desire to call the attention of the Medical Faculty and of the New England public, to the advantages which the new Hospital affords for the comfort of patients and the treatment of those cases which it was the intention of its founders to relieve.

Admission regulations are upon the same principles as those of the Massachusetts General Hospital; the charges depend upon the accommodations, and are as low as the means of the Corporation will admit. In the construction of the Hospital great attention has been paid to the comfort of the patients, in ventilation, heating apparatus, bathing rooms, water-closets, etc. The capacity of the building being in advance of the wants of the public for lying-in patients, the trustees have decided to allow a portion of the Hospital to be used for the accommodation and treatment of diseases of the female sex." and applications may be made personally, or by letter addressed to Mrs. C. Not Impeached.

We observe some papers state that Judge Davis has been *impeached* by the Senate. This is a mistake. The party leaders dare not attempt to impeach him. Removal by "address" and by "impeachment," are two very different things. Any Judge may be *addressed* off the bench, without any good cause whatever, if a party majority in the Legislature, and a partisan Governor see fit to assume the responsibility of doing it. They are only obliged to make up some trumpery reason for his removal, and enter them on the journal; and then *hear* what he has to say in defence. In case of *impeachment*, there must be some crime or "misdemeanor" proved. A misdemeanor, in law, is defined as "an offence less atrocious than a crime."

The following is the constitutional provision upon this matter, in Art. 9, Sect. 5.

"Every person holding any civil office under the State, may be removed by impeachment, for misdemeanor in office; and every person holding any office may be removed by the Governor, with the advice of Council, on the address of both branches of the Legislature."

It will be seen that in removal by impeachment, the thing is done without any action by the Governor and Council. But impeachment is, nevertheless, a somewhat more serious and difficult matter, to carry through, than a removal by address. In the first place the Constitution provides that "the House of Representatives shall have the sole power of impeachment"—that is, the sole power of making the charges.

Secondly, the Senate has the full power of *trying* impeachments, and, "when sitting for that purpose, *shall be on oath* or affirmation,—and no person shall be convicted without the concurrence of *two-thirds of the members present*." [See Constitution, Art. 4, Part 2, Sect. 7.]

Here it will be seen that an officer who is impeached, must be *proved* guilty of misdemeanor; and the Senators who sit in judgment upon him, act under all the solemnities and responsibilities of *an oath*; and will be very careful what they do, if they have any abhorrence of the crime of perjury. In the case of a simple "address," the partisan feelings of the men may lead them to *vote for* the removal of a political opponent from office, when if the same men were attempted to be impeached, they could *upon their oaths*, find him guilty of no action worthy of removal.

The distinction between impeachment and removal will appear in Judge Davis's case. He is to be simply the victim of partizan malignity, and of a desire to change the political character of the Supreme Court. It will establish a precedent which may at any time be fatal to the most upright Judge upon the bench.

The Position of the "Alliance" upon the Liquor Question.

The Portland Advertiser has an article in reply to the Argus, upon this subject, in which it shows that the liquor question was first dragged into politics by the very men of the Democratic party, in running Anson G. Chandler against the regular nominee, Gov. Hubbard, because the latter signed the Maine Law passed by a Democratic Legislature. The Advertiser then alludes to the present pitiable position of the alliance politicians upon the liquor question, as follows:

During the canvass preceding the last fall election, they were loud in their denunciations of the present law, both in its details and its general principles. They promised, in the strongest terms, that if they were placed in power, it should be speedily repealed, and a law should be passed which should commend itself, to the favor of the great majority of the people. The legislature convened. The offices were divided among these "alliance" politicians in the most apparent harmony from which no rapidity and apparent harmony from which no discordity and apparent harmony from which no disunion was very favorable conclusions, as to the promptness with which all their promises, especially on this important matter of a liquor law, would be fulfilled. But time wore on, and nothing was heard from the committee. The people were becoming impatient—and an order was introduced into the Houses instructing that committee to report as soon as practicable. Inquiry was made in the Senate when a report might be expected, and the inquiry was answered by the chairman, Senator Barnes, with a little spice of dignified dignity, that the committee were busily engaged in their deliberations on this subject, and as soon as they should come to a conclusion he could be expected, the report would be submitted. The inquiring Senator and the public generally were also reminded, at the same time, that this subject had, for the first time in several years, been assigned to its proper place in the ordinary course of legislation." So much for the public inquiry and the answer it elicited. Private reports, about that time, said that the committee were equally divided on the question of prohibition or license, and that the prospect of a harmonious conclusion was very dubious. But at length the report was submitted, claiming to have been made by the sanction of a majority of the committee, with a bill such as might be expected from the "broken-down politicians," who, during the canvass preceding the last election, seized upon this question as nobody, and used it for selfish and mischievous purposes." The fact is, they had made contradictory promises, all of which they could not redeem. Many temperance demberats were assured that they should have a good, judicious *prohibitory* law. Others, and by far the greater number, were promised a liberal license law, and still others were promised free trade in liquors as in other property. With these contradictory promises staring them in the face, they have reported a law, which, if it has any friends except those who reported it, we have not been able to discover them. The "alliance" papers seem to be dumb upon this subject, except the Expositor, and that paper is out in open and decided opposition. It is a license law, and yet, after securing the monopoly of a fiee and lucrative traffic in liquors to a favored few, to all outside of this favored circle, it is prohibitory. On this point, the Expositor well says:—"The existing law, in the *monopoly* of the liquor sales which it creates in the town agencies, has the preeminent merit over this proposed law, of securing to the public treasury the profits of the trade, if any be made, over a small commission. The multitude, if anybody, becomes the undivided party in the traffic, under the existing law, and not favored individuals."

"And not only is the proposed law prohibitory, beyond the law who may be tempted, but it [illegible] every festa[illegible] "broken-down p[illegible] mised against, as [illegible]! There is the [illegible]d to be unconsti[illegible] and outrageous! [illegible] have had some c[illegible]n point. It was [illegible] that the Legisla[illegible] it to be an offence [illegible]tank to sell." But [illegible]nised in the bill [illegible]ter? In short, we re[illegible] a single principle of t[illegible] its opponents have re[illegible]tional and unjust, tha[illegible] bill, while its efficienc[illegible] and restrain drunkenn[illegible] provision that a favore[illegible] sell freely), as a fever[illegible] which a man is promo[illegible]. A man has a "natural [illegible] in the reasoning of the [illegible] until he becomes a dru[illegible] Legislature has no rig[illegible] up to that point! Town Elections.

In Camden the residence of Col. Smart of the Free Press, the entire Republican ticket of town officers is elected.

New Vineyard, elects an entire Republican ticket. Last fall the hunkers carried it by over 30 majority.

Bremen elects Republican officers.

In Palermo notwithstanding Senator Marden has been at home drilling his forces for several days, he was beaten by Hiram Worthing Republican, for first Selectman by about fifty majority. The Republicans were triumphant in electing their entire ticket by from thirty to fifty majority Selectmen, Assessors and Overseers of the Poor —Hiram Worthing, Rufus Rowe, and Page H. Cain all Republicans.

The vote in Palermo, last fall, was for Morrill, 122, Wells and Reed, 168.

Unity has chosen a clear Republican ticket by a handsome majority.

In Knox, the Republicans elected James Aborn, Mark P. Wentworth and John Post, Selectmen, by a majority of 30. In September, the majority for Wells was 30—Republican gain 60.

Searsville and Thomaston have both elected Republican officers.

The Augusta Age gives a list throughout the State of 18 towns which elect anti-Republicans and claims to have *gained* most of them—but in all but two the hunkers had majorities last fall—generally heavy.

REPUBLICAN GAIN IN ROCKLAND. The hunkers have raised a pæan of triumph at the election of an anti-Republican Mayor in Rockland—but a comparison of the vote with that of last fall will show that the Republican cause has in fact made a most gratifying gain in that city, on a hardly contested election. Berry, the anti-Republican candidate, received 632 votes, Crockett, Republican, 669, majority against him 19; whole vote 1261. In September last, the vote of Rockland was, for Morrill, 481, Wells 582, Reed 144; majority against us 247; whole vote 1207. Thus it will be seen that on a *larger vote* than in September, the hunkers have actually lost 94 votes, and the Republicans *gained* 138; and that the Republican net gain is 232 votes! Such are the victories boasted of by the opposition. May they have more of them.

THE CATHOLIC.—Letters addressed by a Jurist to a Young Kinsman who proposed to join the Church of Rome. By F. H. Derby. Boston: J. P. Jewett & Co. 1856.

As indicated by the title, this is a volume of argumentative letters, addressed to a young student with the purpose of dissuading him from embracing the dogmas of the Romish Church; and the author says they were successful in the object. We have not read the book, and cannot speak of the weight of the arguments. The author says, in his introduction that,

He resolved not to mourn casuists, but to the fountain-heads and test all the claims and faith of the Church of Rome, by the writings of its opponents, but by those authorities on which that church relies, namely, those early saints, fathers and popes, Augustine, Clement, Irenæus, Ambrose, Chrysostom, Theophius, Jerome, Athanasius, Leo, and all the labors revered by the church itself, and, in many instances, inscribed on its tree of saints and martyrs. He also drew his illustrations from scripture, history and books of travels.

We observe that Mr. William G. Morse, Architect, has taken an office at No. 2, Granite Block, and has concluded to make Bangor his residence, for the present at least. We feel gratified at this, for Mr. Morse is a young man of decided genius and talent, and will do much in the line of his business towards adorning the city with beautiful buildings, and improving the standard of architectural taste. He has given good evidence of his talent, in his designs for the Central Market Building, which is very justly the pride of the city.

In the Griswold case, at Philadelphia, the Court has decided that there was not sufficient evidence to show that the Respondent had used fraud in procuring his divorce, or if there were fraud the complainant was cognizant of and a party to it: and therefore, as also for the reason that the record of the divorce is not on file, the motion to vacate was refused. A rule to amend the record by copies and evidences of the lost papers was allowed.

SPRING APPROACHING.—The ice in the Penobscot below Frankfort, left the river on Thursday; and several boats arrived at Frankfort on that day. The river has been frozen over to some distance below Buckspoort—a very unusual occurrence.

All in want of, books, will do well to examine the stock and attend the sale this forenoon and evening, at Prescott's, Central Street Auction Room.

BANGOR, March 17, 1856.

GENTLEMEN:—I noticed to-day, the strictures of the Journal of the 15th, upon the communication of "A Republican" in reference to the qualifications of Geo. M. Weston Esq., for Governor of this State; but feeling somewhat, in reference to this paper, as I usually do in meeting a certain kind of animal, with a striped back and bushy tail, I should be inclined to pass the matter by unnoticed, were it not, that I believe an allusion to the spirit and principles of the Journal, might serve to awaken the public mind, to the dangerous tendencies of its teaching in reference to the most leading questions of the day.

As the tree is known by its fruits, so also, may man by his words. An *honest* difference of opinion upon politics, or any other subject, is to be tolerated, and should ever require a fair and honorable expression of opinion, without descending to low blood-guardism. Any man, however much he might fear to be "chased by a cow," would most certainly prefer this alternative, rather than stand within the atmosphere of the Journal. As to the "issue," no honest man will ever fear to rest his success or failure, upon the great principles of temperance and human rights. The question is not, whether our cause is popular, or unpopular, but whether our political action will subserve the the highest good of the people. Many a dishonest politician, now acting with the hunkers, would readily become a "Black Republican" so to remain an advocate for ruin and slavery, if by so doing, his dishonest ends, might more easily be gained.

A REPUBLICAN.

HARPER'S MONTHLY for April is received from Petridge & Co., Boston, and O. R. Patch, Bangor. It is a very interesting number, the leading article being a very full biography of Gen. Israel Putnam of revolutionary memory, well illustrated by engravings.

FIRE IN CUTLER.—We learn from The Machias Union that the dwelling house of Capt. Wm. Cates in Cutler, was destroyed by fire on the 13th.

State Rights to be a Northern Doctrine.

In a small room, in a side street, in the town in the extreme South West corner of the great State of Ohio, before a handful of hearers, two men discussed one and one man decided the question, "can a State writ take a criminal against the laws of the State, out of the hands of United States officers." The decision was that it could not. We will venture to say that two millions of the people of Ohio would very heartily decide that it could, and in the case of their State that it should.

The decision was rendered in respect to the fugitive slaves, lately overtaken at Cincinnati, Judge Leavitt remitted four of them to bondage, giving supremacy to the claim of the United States Marshal, over the rights and powers of the State Sheriff. It will be recollected that one of the mothers, in a frenzy of despair at the prospect of recapture and of hopeless bondage for herself and her children, and with a sublime passion for Freedom, endeavored to slay her three little ones, while the pursuers beat upon her hiding place. She had time to offer up but one of them. The technical crime of murder was complete. It had been committed upon the soil of Ohio, and with indictments or accessoryship on the part of the companions of her flight. While the question of their stewardship was yet before the Federal Commissioner, the Sheriff of Hamilton Co. directed by a warrant issued by a magistrate upon proof of the murder and evidence of the complicity, arrested the woman and her party. They were legally in the custody of the State of Ohio, to answer to the highest crime that could be committed against her sovereignty and well-being. A conflict arose between the claims of the Federal Marshal and the State Sheriff. The first officer represented the demand of a Kentucky farmer for "property." The second, represented the need of Society to be guarded, against the crime of murder—nay, represented the divine principle of a civilized State. The Judge decided that the right of the Kentuckian to the possession of murderers as his "property," was higher and better than the right of Ohio to them, as criminals against her sovereign laws.

The time will probably come, when no one will be permitted to degrade the civilization of the State of Ohio, by blasphemously raising the question any where upon her soil, whether a Man is a Man or a brute. The Divine Author settled that question when "he made Man in his own image." But pending the coming of that day of justice and truth, the decision of Cincinnati presents elements of mischief that should constantly arrest the attention of all in the States who love local freedom, and are unwilling to strengthen the Federal Government into a tyrannous power.

This claim of the superior force of Federal authority in its conflict with State power, is capable of being greatly perverted and mischievously used. It can be played by one State upon another—by the citizens of one section upon those of another—and dangerous in itself to the independence and dignity of the States, its exercise can be made hurtful to the Federal relation. It will not be good to respect for our Union to see its powers made serviceable to the evil passions and the unjust wants of sections. Nor will the Democracy of the several States long relish encroachments upon their civil life from the District of Columbia.—*Albany Journal.*

NEW YORK, March 19.

MR. CRAMPTON.—The following is from the Herald's correspondent:—I am authorized to state on reliable authority that Mr. Crampton will be re-called by his government, perhaps for promotion; it may be to answer charges for misconduct. Mr. Marcy's dispatch says Mr. Crampton's continuation in the recruiting business after the receipt of instructions from his government, was like being the English Minister, who immediately on send a copy to be forwarded to Mr. Crampton for explanation. Our government learns that explanation has not been given, and that Mr. Crampton will be recalled.

WM. LLOYD GARRISON AND THE REPUBLICAN PARTY.—In the last number of the Liberator, Wm. Lloyd Garrison makes a violent attack on the Republican party and its principles, because he says "the Republicans are decidedly devoted to the constitution—that compact with death, and to the Union *that agreement with Hell.*" The Age and other organs of the Republican party struggled hard to identify Garrisonism. We presume they will hardly continue their efforts to weigh Garrison himself in the Republican party.—*Kennebec Journal.*

GO IT BOOTS—WHY NOT? The Boston Bee says: Nearly every woman we meet on the streets yesterday had on a pair of handsome long-legged, water proof boots. Better that is than paper-soled, ridiculous shoes. We are in the millennium is approaching. Women wear boots. When woman will allow common sense instead of false notions of elegance to be a safe guide in the selection of clothing for herself, she will be a very much happier and healthier creature. Boots are the enemy of the doctors.

LEGISLATURE OF MAINE.

Wednesday, March 19.

SENATE.—[The resolves relative to addressing Judge Davis off the bench, as published in our paper, were introduced by Mr. Harriss and passed 2 to 2—a strict party vote.]

On motion of Mr. Goodwin, the Senate proceeded to the consideration of a resolve in favor of the East Maine Conference Seminary. The question was on its passage to be engrossed.

After some explanation by Mr. Goodwin, of the reasons which induced the committee to report the bill, and a statement of facts which would warrant its passage, Mr. Hathorn moved the indefinite postponement of the bill.

On motion of Mr. Burrill, the yeas and nays were ordered.

Yeas—Messrs. Anderson, Burrill, Crane, Hathorn, Heagan, Hodsdon, Holland, Jones, Lowell, Marden, Read, Robinson, Rowell, Swasey, Talbot, Thompson, Weston—12.

Nays—Messrs. Baker, Bean, Rhinelander, Shepherd, French, Goodwin, Haydon, Junkins, Shepherd, Sprague—8.

Read and assigned—Resolve in favor of Penobscot Indians.

Passed to be enacted.—An act additional in relation to elections in cities; an act to reduce the capital stock of the Veazie Bank, Bangor.

HOUSE.—*Passed to be enacted*—Bill to reduce the capital stock of Veazie Bank.

Passed to be engrossed—Resolves in favor of the Penobscot Indians; relating to books for the several towns.

On motion of Mr. Morrow of Searsmont, the House resolved itself into a Committee of the whole on the Portland and Oxford Central Railroad, after which the Committee rose, reported progress, and were discharged from the further consideration of the subject.

Mr. Levensaler opposed the adoption of the amendment as it now read, and after a long parliamentary wrangle, withdrawn, and Mr. Chase moved to recommit the report, with instructions to bring in the bill of last year. The yeas and nays were ordered, and the motion carried—Yeas, 86; nays, 40.

CURIOUS MOUNTAIN IN CALIFORNIA.—In Tuolumne county, California, there is a very peculiar mountain from which great quantities of gold have recently been obtained. It is composed of old lava, or basalt, resting on ancient gravel and other depositions from water. On the top it is as level almost as the waters of a lake, only descending very uniformly to the west. Its height above the surrounding country varies from one to five hundred feet. Its width is generally not far from a sixth of a mile, though differing in places. But its remarkable peculiarity is, that through its length, which is some fifteen or eighteen miles, it winds and curves with other variations, in exact resemblance to a vast river; just exactly as it would had it once been disgorged, a molten fiery flood, from the old burning Sierra volcanoes, and poured down the deep channel of some ancient river, bearing on with its mighty current quantities of rocks and pebbles and sand, mingled in and formed into a part of itself upon its edges, filling up the whole bed of the river, and then cooled down into a moveless solid mass. From its shape it has received the name of "Table Mountain." Various tunnels have been made by miners through the hard basalt, to reach the bed of the ancient rivers, and there is a wild excitement among California miners regarding the immense treasures supposed to be under the lava.

A Substitute for Fire Engines.

There is now in existence in this city a neat and convenient instrument, which, while it must effectually extinguish fires, avoids the evils consequent upon the use of the fire engine. It is ready for use at a minute's warning, occasions no delay, does little or no damage to furniture or merchandize at the point where it is applied, and acts only to check combustion by immediately and entirely extinguishing every spark or burning mote with which the gases emanating from the material applied comes in contact. The instrument referred to is termed a *Ballista*, or *Fire-gun*. A patent is already secured by the inventor, Mr. Wm. Mount Storm a gentleman favorably known as the discoverer of other ingenious applications of mechanical principles to different purposes.

The Fire-gun discharges a half-pound cartridge, having a fuse that will be ignited in the act of firing. The cartridge is thrown with force sufficient to make its way through windows or wooden shutters; and the materials of this cartridge, with a slight explosion, expands into a large volume of carbonic acid and other gasses, which, enveloping the burning masses, extinguish them as readily and perfectly as water. The fireman can shoulder his Fire-gun and his supply of cartridges as speedily as he can throw on his hat and coat; and in using this instrument he loses no valuable time in running to an engine-house, dragging a ponderous machine along the streets, and it may be, in useless efforts to connect and employ hose, in which very often the water freezes.—*New York Sun.*

FIRE IN DOVER.—The dwelling house and out-buildings owned and occupied by Mr. Jas. M. Garey, in this town, were entirely destroyed by fire on Saturday night last, together with all their contents. Loss about $800. There was no insurance on the buildings, and the loss settled that question when "he made Man in his own image." But pending the coming of that day of justice and truth, the decision a selection of clothing for herself, she will be a very much happier and healthier creature. Boots are the enemy of the doctors.

A "NATIONAL MAN."—A man named Fitzgerald was lately hanged in Albany for the murder of his father, mother and brother. A negro was also under sentence, and Fitzgerald supposing that he had been previously hung, remarked, "I hope to God they won't hang me with the same rope they hung the nigger with!" There is genuine "nationalism" for you!

GOOD SHUNK.—The young ladies of Aurora, Ill., have passed the following "leap year" resolution:

Resolved, That, if we, the young ladies of Aurora, don't get married this year, somebody will be to blame.

An exchange paper says—"A clergyman at the South in sending a sermon for publication in the National Preacher, observes, incidentally—'I should have no objections to your obtaining for me the degree of D. D., from some Northern College. I am a very popular man at the South, and I think it would have a tendency to harmonize the North and South.'"

HOW TO SWEETEN THE BREATH.—For this purpose, almost the only substance that should be admitted to the toilet, is the concentrated solution of chloride of soda. From six to ten drops of it in a wine-glass full of pure spring water, should be taken immediately after the operations of the morning toilet are completed. In some cases, the odor arising from carious teeth is combined with that of the stomach. If the mouth be well rinsed with a teaspoonful of the solution of the chloride in a tumbler of water the bad odor of the teeth will be removed.—*Exchange.*

A new stove has been invented for the comfort of travellers. It is put under the feet, and a mustard plaster upon the head, which draws the heat through the system. Said to be a Yankee invention. Patent rights sell cheaply.

Holloway's Ointment and Pills, infallible remedies for the Salt Rheum. Edward Johnson, of Galveston, Texas, suffered unceasingly for four years with Salt Rheum. So bad was he that for four or five months at a time he was compelled to keep his bed, and the doctors told him candidly that no need never again expect to be well. Finding this to be the case he dismissed them, and immediately put himself under the course of Holloway's Ointment and Pills. These fine remedies soon made such an improvement in him that he was enabled to resume his occupation, and by continuing them for a short time, he was restored to the blessings of health, which he has enjoyed ever since.

Copy of a Letter received by Mr. Carver, overseer at Calcutta.

CALCUTTA, June 3, 1852.

Mr. Jesse.—I desire for the information of Professor Holloway to state a few instances of good results from the use of his medicines manufactured by them, Pain Killer. The first case that I shall mention is that of a cure was that of Spleen, of 3 year's standing. The person afflicted with this disease was a native. Together with the Spleen he used to get fevers very frequently, but that failing, I resorted to the Pain Killer and Dinner Pills and I am happy to say, that both the Spleen and fevers were removed in a very short time. A servant of mine had his right hand severely scalded by the fall of a pot of boiling oil on it, was in a few days perfectly cured by the application of a mixture of Cream and Pain Killer, as directed in such cases. Then my child, a girl three years of age, was cured of an obstinate Cough. Finally, I myself, I took the medicines under similar circumstances as mentioned above, however I must say that it would be unnecessary here to state—but I have no hesitation in saying from my own confidence I had in it, on the contrary, I found it with a great deal of fear. However I must say that it was the most extraordinary medicine I ever saw. I was in the habit of taking one of cholera's cured by this medicine, which I got from a friend by name of Mr. Wheeler, a Merchant in this town. The gentleman of whom I speak was attacked with this disease, and the medicine kept by my friend's family for the same were given to him in the most urgent case, and, to my surprise, without any effect, and, in fact, when he was dead and speechless, the medicine was administered, which threw a warmth into the system, and revived his sinking energy—in short the danger was removed. Yours, affectionately,

H. W. CARVER.

Thirty Years Experience of an Old Nurse.

Hear the Brooklyn Daily Advertiser:

We cheerfully comply with the request of a friend to insert the following letter, which we are assured is from a lady of the first respectability, residing in Lowell, Mass., believing that a vast amount of suffering of the parents, as well as many valuable lives saved, by calling the attention of mothers to that valuable prescription of an old and experienced nurse, is certainly worth the space it will occupy.

"Dear Sir,—I am happy to be able to certify to the efficiency of Mrs. Winslow's Soothing Syrup, and to the truth of what it is represented to accomplish. Having a little boy suffering greatly from teething, who could not rest, and at night by his cries would cost parents a day of the same, and many valuable lives saved, by calling the attentions of mothers to that valuable prescription of an old and experienced nurse, is certainly worth the space it will occupy.

"Dear Sir,—I am happy to be able to certify to the efficiency of Mrs. Winslow's Soothing Syrup, and to the truth of what it is represented to accomplish. Having a little boy suffering greatly from teething, who could not rest, and at night by his cries would cost parents a day of the same, I purchased a bottle of the Soothing Syrup, in order to test the remedy, and when given to the boy according to directions, the effect upon him was like magic. He soon went to sleep, and all pain and nervousness disappeared. We have had no trouble with him since, and the little fellow will pass through with comfort the excruciating process of teething, by the use of Mrs. Winslow's Soothing Syrup. Every mother who regards the health and life of her children should possess it.

WISTAR'S BALSAM OF WILD CHERRY.

From the N. Y. Evening Mirror, May 25.

"Among the Panaceas advertised for the cure of human ailments, there is one in which we have more confidence than WISTAR'S BALSAM OF WILD CHERRY. We regard it as one of Nature's own preparations—simple, pure, pleasant to take, and almost certain to cure all bilious and pulmonary affections. We have frequently seen wonderful effects in cases that were regarded as hopelessly desperate, and we can conscientiously recommend it as one of the best medicines in the world."

It has proved itself a standard remedy for Coughs, Colds, Influenza, Bronchitis, Asthma, and Consumption in its incipient stages, than any other medicine.

Cheap & Convenient Building.

Door, Sash and Blind Factory,

DUNBAR

HAS been very successful in completing several contracts for Door Frames, Doors, Window Frames and Sashes, and Blinds, for good dwelling-houses and other buildings to be erected in this city the coming season. He has excellent workmen in his employ, and has superior stock, so that he is now able to supply to those about to build the best articles of Door Frames, Window Frames, Sashes, and Blinds, made to any dimensions and of superior quality, either for a whole house or for a less quantity. The trouble and expense of buildings is very much lessened by having these articles made separately, so that the carpenters have only to put them in their places in the structure.

This business has become so well systematized that a small margin is left in knowing beforehand the cost of a dwelling-house, while the work is of a uniform excellent quality.

Any one interested can examine specimens of the work at the Factory, near the Rose Place, or at the store of T. S. Jackson, on Exchange st., and at either place any article may be obtained or large quantities ordered.

Mr. Dunbar is also prepared to furnish Window Blinds ready painted, and will hang them at the shortest notice.

By long experience, and by determined perseverance, the subscriber is now enabled to suit his customers, both in quality and price, and so well organized a business that no man should now think of being in the old and slow and imperfect method.

TESTIMONY FROM MAINE

Capt Daniel Abbott, Brooklin, Maine, July 16, 1855, says. "I was taken sick one year ago last April, upon my passage from Havana to Charleston S C. At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite At last taking up a newspaper having your advertisement of "Hoofland's German Bitters" in it, I sent for some immediately This was at 10 o'clock, at 11 o'clock I took the first dose, and another at 6 o'clock The effect was so rapid on me that I had a good appetite for supper, and rested well that night, and the next day found me quite well man—I have not been without your medicine since, having been sailing between Baltimore Charleston, and the West India Islands ever since. I have now given up going to sea and reside on this place, whose you should have an agency, as you could sell large quantities of it

Jos B Hall & Co, Presquisle, Aroostook Co., Maine, April 26, 1854, say "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters We think Mr Clark to be a man of veracity, and have no doubt of the truth of his story.

Messrs Jos B Hall & Co—Gentlemen—In answer to your inquiries I will state that my daughter, aged about 16 years, has been complaining of a pain in her side for six or seven years, and about the first of January last was taken down and confined to her bed The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast From reading a number of cures performed by Hoofland's German Bitters, I was induced to try them in her case and sent to your store and purchased one bottle. She had taken it but a few days when she began to improve, and now, after taking only one bottle, she is enjoying better health than she has for years—She feels no pain in her side or any part of her body, and attributes her cure entirely to the German Bitters

WILLIAM CLARK.

Salmon Brook, Aroostook Co., Me

You should bear in mind that these Bitters are entirely vegetable, thereby possessing advantages over most of the preparations recommended for similar diseases

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, (late Agent of the U S Patent Office under the Act of 1837,) continued to present advantages in applying for patents, superior to those offered inventors by others, has made arrangements, whereby, on application prepared and conducted by him, THIRTY DOLLARS (instead of *twenty, as paid back by others,*) will be remitted by him in case of failure to obtain a patent, and the withdrawal, through him within thirty days after the rejection

The Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immensely superior to, any which can be offered them elsewhere The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would declare that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate—The unequalled practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents Those, besides his extensive library of legal and mechanical works, are at the disposal of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, H ll ELDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity, and success I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in due form to ensure for them an early and favorable consideration at the Patent Office, EDMUND BURKE,
